Brass & Nickel Hinges

NM-3 Non-Mortised Hinge with Ball Tips

Our non-mortise hinge is simply the best non-mortise hinge available at any price. Machined from extruded brass, each is machined to precision tolerances. The hinge leaves measure $1\frac{1}{2}$ " wide when open by $2\frac{1}{2}$ " tall. Perfect for $\frac{3}{4}$ " thick wood.

A back bevel of 2-3 degrees is required when installing any of our non mortised hinges onto your cabinets.

Available in all seven of our finishes with three different top options. Color matched brass screws are included with each pair.

NM-7 Non-Mortised Hinge with Flat Tops

Available
Finishes

NM-7 Antique

The original NM-3 ball tipped non-mortised hinge proved so popular that we expanded the options a while back. The flat topped NM-7 variant may be better suited to shaker style kitchens and more modern designs. Machined from extruded brass, each is machined to precision tolerances. The hinge leaves measure $1\frac{1}{2}$ " wide when open by $2\frac{1}{2}$ " tall. Perfect for $\frac{3}{4}$ " thick wood.

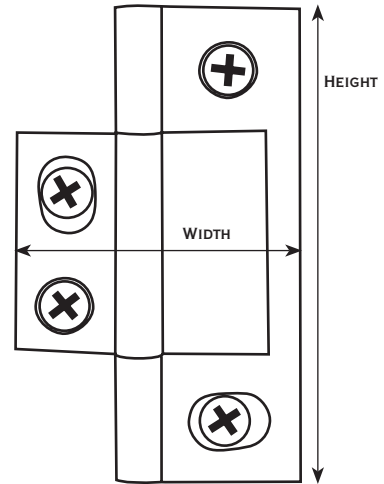

A back bevel of 2-3 degrees is required when installing any of our non mortised hinges onto your cabinets.

Available in all seven of our finishes with three different top options. Color matched brass screws are included with each pair.

Dimensions

	height	width	thickness
NM-7	$2\frac{1}{2}$ "	$1\frac{1}{2}$ "	$\frac{3}{32}$ "

NM-7 ACTUAL SIZE

NM-5 Non-Mortised Hinge with Minaret Tips

The third and final variation of our NM-3 non-mortised hinge—the NM-5 minaret (or finial) tipped gives you a more decorative option. Machined from extruded brass, each is machined to precision tolerances. The hinge leaves measure $1\frac{1}{2}$ " wide when open by $2\frac{1}{2}$ " tall. Perfect for $\frac{3}{4}$ " thick wood.

A back bevel of 2-3 degrees is required when installing any of our non mortised hinges onto your cabinets.

Available in all seven of our finishes with three different top options. Color matched brass screws are included with each pair.

HH-2 Surface Mounted Hinge

Exquisite cast brass H Hinge in four sizes for flush mounted doors. You find H hinges most often on corner cupboards and entertainment centers. They are the easiest type of hinge to install on flush mount doors. Beautifully forged and machined for well fitted knuckles.

Sold per pair and a stock item in five different finishes. Nickel finishes are available as custom option. Each pair is supplied with all needed fasteners for installation.

Available

PB-405 Small Box Hinge

Specialty devices call for specialty hardware. While other makers have discontinued such products, Horton Brasses considers the reproduction and restoration needs of our customers. Clock and box hinges fall within this limited but requested scope.

Made of solid brass, box hinges are requested for their small size—a necessity for jewelry boxes and similarly-small chests. The smooth, durable design makes such hinges a requirement. These hinges are sold per pair and come with all necessary fasteners.
